

GEORGE

By George, it's a first!

A space-saving stationary APQS machine with a large throat.

George loves the quality and large throat of APQS longarm machines. But he doesn't have a lot of room. He was such an inspiration in creating our new stationary, sit-down machine, we named it after him.

The generous 20" throat space means you'll never again have to struggle with squeezing quilts through a small space. And when you're done quilting, George's table folds down to occupy just 60" x 23" of space.

George Features

APQS carefully chose "belt drive technology" as the means of transferring power to the upper and lower shafts. Designed and constructed in a way to provide precise machine timing for sewing in all directions. Ask any APQS owner and they will tell you that timing or re-timing is almost non-existent. In addition, "belt drive technology" requires no lubrication, is quieter in operation, and reduces vibration.

Our low inertia Smart•Bobbin provides precise thread tension, better stitch quality, and allows the use of almost any thread.

Disc-style tensioners provide the most superb thread delivery system. Accommodates different thicknesses along a single strand of thread.

- Variable needle speed (200 – 2400 SPM)
- Handcrafted from aircraft grade aluminum
- Throat size of 20" x 8"
- Voltage 120V 50/60 Hz. All APQS machines run on standard household current.
- Super-quiet fully-enclosed DC motor. This safety feature is an APQS exclusive.
- Synchronous Belt Drive that is guaranteed for life. Belt drive technology provides precise machine timing, requires no lubrication and reduces vibration.
- Low inertia Smart•Bobbin provides precise thread tension, better stitch quality and allows the use of almost any thread.
- Disc-style tensioners provide the most superb thread delivery system. Accommodates different thicknesses along a single strand of thread.
- Two-stage automatic needle positioner
- Single-stitch function
- Easy bobbin access
- Easy to operate foot pedal

The George Complete Quilting System—Base Price*

With space-saving table - \$7,900

Prices subject to change

**Every complete quilting system comes with machine, table, frames, patterns, thread, bobbins, industrial bobbin winding machine, simple easy-to-follow assembly instructions, basic training video and manual.*

The possibilities are limitless when you move up to APQS.
